Analysis by Emily Gullikson

DEL MAR OAKS (G1):

A competitive group and tough to pick holes in any of the runners as individuals which makes it tougher to make on a shorter price in this field. #6 MEDORO wheels right back from a BTL effort in the San Clemente (G2) and upgraded making TWO_MOVES while racing WIDE after the SLOG and even with the respectable show finish (earned same B OptixGRADE as the race winner, #1 ISCREAMUSCREAM) can still IMPROVE.
